About KIDV

- Founded in 2013
- Based in The Hague, the Netherlands
- Team of 15 experts
- Supervisory board of industry representatives
- Committee of independent experts
- Funded by: Afvalfonds Verpakkingen (Dutch Packaging Waste Fund)
- Mission KIDV: to help reduce the environmental impact of packaging in the entire packaging value chain

Activities

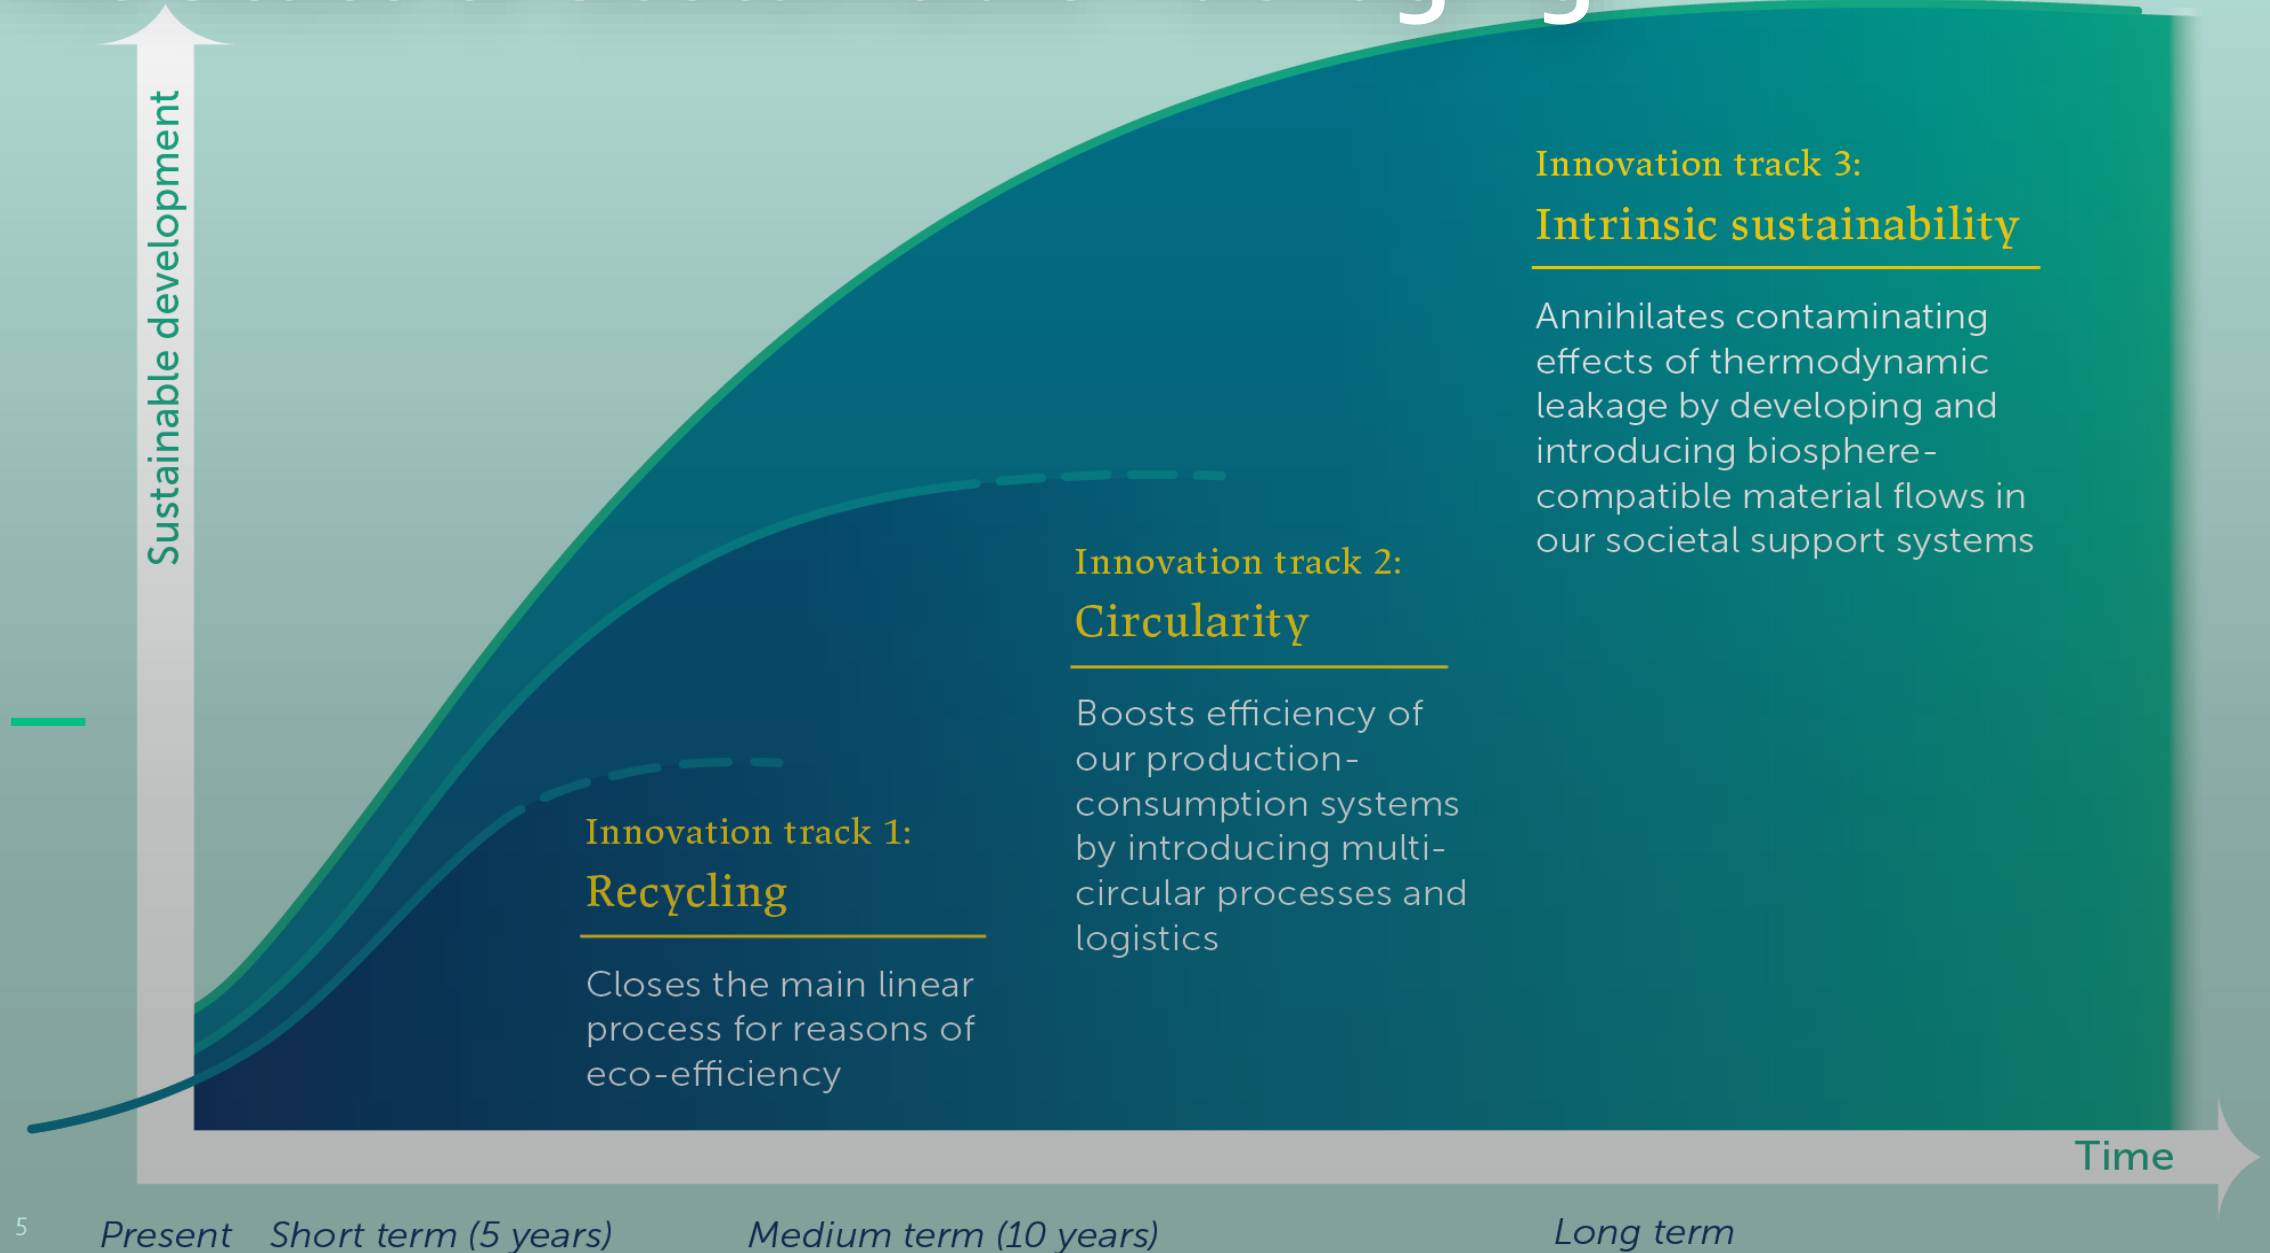

- Translate knowledge into tools and clarify complex issues
- Consulting and advisory services for producers and importers of packed products
- Establishing 'communities of practice' on relevant themes
- Support sector organisations in setting sustainable goals
- Cooperate with universities and offer courses and workshops for professionals
- PackForward: the European movement working on sustainable packaging

Packaging delimitas

The State of Sustainable Packaging

Innovation is key

Innovations

 <p>PaperFoam</p> <p>Home compostable egg cartons</p> <p>></p>	 <p>Cooper's Refillery</p> <p>Refilling plastic bottles at refill stations</p> <p>></p>	 <p>This is Circular</p> <p>Essential, natural products delivered in reusable container</p> <p>></p>
 <p>PaperWise</p> <p>Paper from agricultural waste</p> <p>></p>	 <p>Veridis Instruments</p> <p>Increasing the value of recycled plastics</p> <p>></p>	 <p>LAM'ON</p> <p>A biodegradable laminating film</p> <p>></p>
